

VEGA

Commerce OS — **for Ecommerce**

A team of AI employees for your store.

— THE PROBLEM

Where your store bleeds money

Every store leaks margin in the same four places — support, returns, abandoned carts and slow content.

40–70%

Of tickets are “Where is my order?”

At \$5–22 each, WISMO quietly eats support budget.

16.9%

Average return rate

≈\$0.85 lost on every \$1 returned.

~71%

Of carts abandoned

Revenue walks out the door before checkout.

Weeks

To write catalog copy

Product launches stall waiting on descriptions.

Industry benchmarks (2025), not guaranteed results.

— WHAT IS VEGA

One AI operating system for your entire store.

A team of AI employees plus one command center — personalized 100% to your brand, catalog and policies.

— Not five bolted-on plugins. One system.

— YOUR AI EMPLOYEES · 24/7

A full team, always on

01

Support Rep

Handles WISMO, returns and product questions instantly, around the clock.

02

Trend Scout

Tracks trends & competitors to tell you what to stock next.

03

Catalog Writer

Bulk-writes SEO product copy that ships in hours, not weeks.

04

Returns Specialist

Manages returns end to end and recovers margin where it can.

05

Sales Assistant

Guided selling plus cart recovery to win back lost checkouts.

— ONE COMMAND CENTER

Every store, one cockpit

01

Multi-store control

All your stores managed from a single dashboard — no tab-switching.

02

Unified inbox

Email, chat, WhatsApp, IG, FB, TikTok and marketplaces in one place.

03

Mission control

See exactly what each AI employee is doing — and the ROI it drives.

— THE PAYOFF

Cut cost, lift revenue — automatically.

AI cuts support cost up to 70% and content time up to 90%. Retail & ecommerce see the highest AI ROI of any sector, averaging ~220%.
